

*MarkovProcess*

```
classDiagram
    SimpleMarkovProcess --|> MarkovProcess
    GeomProcess --|> MarkovProcess
```

The diagram consists of three rectangular boxes, each divided into two horizontal compartments. The top compartment of each box contains the name of a class in an italicized font. The bottom compartment is empty. Arrows indicate inheritance: a horizontal arrow points from the right box to the top-left box, and a vertical arrow points from the bottom box to the top-left box.
